Profile

Impact-driven **Product Designer** with a Computer Science & AI background, currently leading the end-to-end revamp of an **enterprise SaaS platform** for the Saudi and GCC market. I build and maintain design systems in Figma and design Arabic-first, RTL web and mobile experiences. I turn complex business requirements into intuitive, accessible interfaces, and my front-end skills (HTML, CSS, JavaScript, React) keep the path from concept to launch smooth.

Experience

Product Designer · *Saudi Tracking Company*

CURRENT

MAY 2026 — NOW

- Product designer on **Nasam**, an enterprise Fleet & Asset Management SaaS for the Saudi & GCC market, covering web portal and mobile app (Arabic-first, RTL).
- Leading a full product revamp: new information architecture, modern UI, and new modules (Reports, Dashboard, Super Admin).
- Building and maintaining the Nasam Design System in Figma for consistency across web and mobile.
- Taking features from user stories to interactive prototypes and developer-ready Figma screens.

Freelance Product Designer · *Remote*

2022 — NOW

- Web and mobile products for clients across industries, from concepts and user flows to high-fidelity UI and prototypes.
- Worked directly with clients on business goals and delivered developer-ready Figma files and reusable components.

Senior UX/UI Designer · *Osolutions*

FEB 2025 — MAY 2026

- Spearheaded end-to-end UX/UI design for **Growth In**, a business-development and task-automation platform.
- Led the design direction for multiple web and mobile apps, keeping a consistent, high-quality experience.
- Directed the full lifecycle with PMs and engineers: research, personas, wireframes, prototypes and usability testing.

Python · Java · SQL Server · ERPNext · Frappe

PROCESS

User-centred design · User research · Usability testing · Responsive design · Info architecture

Education

B.Sc. Computer Science & AI

Helwan University · 2018 — 2022

GPA 3.24 (Very Good) · Graduation project: Excellent (A)

Languages

Arabic	Native
English	Professional
Italian	Basic

// note to self

Good design is invisible. Great design is Arabic-ready ✦

Experience — *continued*

UX/UI Designer · *Tanfith Digital Solutions*

JAN 2024 — JAN 2025

- Designed web and mobile interfaces for client projects including **Nahda Housing** and the **Aqarcom** real-estate app.
- Contributed to task-management, real-estate and HR systems across the full SDLC.

UX/UI Designer · *XSolution Company*

FEB 2023 — FEB 2024

- Created responsive, mobile-first UX/UI for web and mobile platforms in Figma and Adobe XD.
- Focused on usability and consistent, responsive layouts across screen sizes.

Selected work — *on Behance*

Creator Support — Mobile App Case Study
Platform for fans to discover and financially support creators in 3 taps. iOS mobile, end-to-end case study.
